PROGRAM

We offer you TB games, which will shorten and entertain you to the extent that you will again want our company again. The games we offer are the result of our work, imagination and animations in the last 10 years. This is the way in which we create relatively large groups of between 6 and 15 people who simultaneously perform tasks at certain stations. At each station there is an animator that gives instructions for the work, and the teams move according to the crop rotation method from station to station. The timeframe of the animation implementation is aligned with the subscriber, but usually the program lasts between 2 - 3 hours.

References: These games have been selected by the following companies over the past three years:FORD GROUP, HALCOM, FREEDOM CENTER, KOMPAS, KOVINTRADE, PROFUTURA, LOTERIJA SLOVENIJE, PIPISTREL, BSH, JUTEKS, SKAZA PLASTIKA, STUDIO MODERNA, POŠTA SLOVENIJE, SINTAL GROUP, OBČINA VRHNIKA, KOMUNALA VRHNIKA, KRKA D.D., KOVIS D.O.O., ŠPORT RADAR, KPMG, HABIT D.O.O., RADIO CENTER....

The tail and head of the snake must not be in contact. The game is over when all the items are in their place. Important: collusion, appropriate tactics, communication, organization, permanent physical contact.

Your task is to place a glow ball without touching your hands or feet (only with a props) on a blue ring in the middle of your props. The ball is then transferred from point A to point B only with the aid of ropes. Each team member holds his end of the line at the end (up to 1 knot). The ball must always travel on a blue ring and must be in the air. Important: cooperation, calmness, tactics, ..

The task of the group is to travel "overwhelm" a certain distance from axis point A to point B, so that all three skis are in use all the time. Skis are traveling on the ground in both directions! Important: tactics, rhythm, cooperation, instructions ...

10. »LIVE SAND«

Members of the group must overcome a certain distance by placing bricks on the track and not reaching the ground. When the distance is beat first, start the other and so on in the relay until the last in the group. The goal of the task is to distance all team members plus all the bricks they use. Use as many bricks as people in the group. Important: collusion, choice of tactics, customization, search for solutions, partial physical contact, job scheduling

The games are scored according to the best system at the station, and the worst is the least. The highest total of points points to who the winner is.

Games are run according to the crop rotation system, where all groups work simultaneously. We make an appropriate number of groups with an equal number of participants (5 -16). The time for the task is 8 - 12 min, 2 min for reflection on received instructions, and approximately 1 min to move from station to station. Games should be completed no later than two to three hours. Depending on the number of games. After finishing work on the field we sum up the results and announce the winning teams.

LOT OF SUCCESS AND ENTERTAINMENT!
